Mr. Yang has over nine years of experience providing antitrust legal services, specializing in antitrust litigation, investigations, and compliance.

In the field of antitrust litigation, Mr. Yang has handled numerous high-profile cases, including JD.com v. Alibaba; the Supreme People's Court's first anti-administrative monopoly judgment; the first consumer victory in "big data price discrimination" case in China. In antitrust investigations, Mr. Yang has provided legal services to numerous well-known companies both domestically and internationally, including several leading internet platform companies, as well as Fortune 500 companies prominent in the telecommunications and mobile device sectors. Mr. Yang has also provided legal services to well-known ride-sharing companies in multiple administrative antitrust investigations. In antitrust compliance, Mr. Yang provides consulting services to well-known enterprises across the telecommunications, electronics, medical device, and pharmaceutical sectors.
